

WE'RE HIRING

Nurse Practitioner

An Independent Practice Focused on Prevention, Client Education and Empowerment

As Nurse Practitioners, our purpose is to make a positive impact on our clients' physical, mental, and emotional health. As family-centred providers, we are in a unique position to empower healthy behaviour change and instill lifelong skills and habits in our younger clients as they grow. This blended practice also includes working with the adult population, managing chronic diseases, and providing episodic and ongoing care. Additionally, we perform minor procedures and offer travel medicine services.

Nurse Practitioners play an important role in normalizing the discussion of mental wellness with their clients and take steps towards promotion and maintenance of mental health and management of mental illness.

WHAT YOU'LL DO:

Our diverse practice is focused on prevention and includes comprehensive primary care for all ages, frequently addressing chronic disease management, client education, and other health concerns, with an emphasis on women's health. We also lead the child, youth, and young adult care programs at Harrison.

- Client care performing well visits, chronic care management, and episodic care
- Conduct thorough, personalized assessments and comprehensive physical exams, along with any laboratory investigations and/or diagnostic imaging
- Collaborate with and refer to multidisciplinary team and/or external specialists as needed
- Collaborate with internal experts on client education such as webinars, articles, and other resources
- Participate and collaborate in shared learning with clinical colleagues

FOR ALL AGES, YOU WILL PROVIDE:

- Review of immunization records and initiate or continue the immunization care plan
- Guidance on safety, family, behaviour, health promotion and risk/harm reduction issues
- Client education and coaching, health promotion and disease prevention with the goal of empowering clients to take an active role in goal setting and action planning

For more information on this opportunity and to apply, contact us

CHILDREN AND YOUTH CARE:

- A comprehensive client care plan in collaboration with the client and/or family, and other healthcare providers, as needed
- Provide well baby and well child care, using evidence-based health guidelines for primary healthcare practitioners for ages 0 to 18 years
- Perform developmental and social-emotional screening in children aged 0 to 5 years
- Conduct a psychosocial interview of adolescents using a strength-based approach and explore emotional well-being and risky behaviours
- Recognize and address the unique needs of the young adult population

QUALIFICATIONS, EDUCATION AND EXPERIENCE:

- Completion of the MN-NP program, Family Nurse Practitioner designation
- Current active registration with BCCNM (BC), CRNA (AB), or CNO (ON)
- Clinical experience in primary healthcare

MEMBERS OF THE HARRISON TEAM ALWAYS:

- Seek out ways to demonstrate our core values of compassion, innovation and excellence
- Display enthusiasm for delivering personalized care
- Navigate and adapt to clinical challenges
- Foster a forward-thinking approach to healthcare and help drive innovation in the organization
- Lean in to learning and willing to use a variety of technologies
